NURSING & REHABILITATION CENTER

Theresa's Success Story

Theresa Stanley's story is one of courage, tenacity, and a triumphant journey back home. Her path to recovery began on February 15, 2023, with a hospital admission due to a broken hip and a battle with COVID-19. Despite the challenges, Theresa's spirit remained unbroken.

Theresa found solace and strength at Springbrook Nursing & Rehabilitation Center as she began her journey of healing. Her recovery was more than just physical—it was about reclaiming her independence and embracing the joys of life. Guided by Springbrook's dedicated therapy team, she made strides towards regaining her strength and confidence.

During her recovery, Theresa was greatly aided by her loyal pet, Coco. Springbrook acknowledged the healing power of their bond, allowing Coco to be by her side. Today, Theresa leads a full life, baking for her grandkids, spending quiet times with Coco, and shopping with close friends. She proudly roams her neighborhood in a golf cart, symbolizing the freedom she reclaimed. Theresa Stanley's journey underscores the power of determination, compassion, and the backing of loved ones in overcoming challenges.
